

# BLACK-DRAUGHT STOCK and POULTRY MEDICINE

Stock and poultry have few troubles which are not bowel and liver irregularities. Black-Draught Stock and Poultry Medicine is a bowel and liver remedy for stock. It puts the organs of digestion in a perfect condition. Prominent American breeders and farmers keep their herds and flocks healthy by giving them an occasional dose of Black-Draught Stock and Poultry Medicine in their food. Any stock raiser may buy a 25-cent half-pound air-tight can of this medicine from his dealer and keep his stock in vigorous health for weeks. Dealers generally keep Black-Draught Stock and Poultry Medicine. If yours does not, send 25 cents for a sample can to the manufacturers, The Chattanooga Medicine Co., Chattanooga, Tenn.

ROCHELLE, GA., Jan. 30, 1902.  
Black-Draught Stock and Poultry Medicine is the best I ever tried. Our stock was looking bad when you sent me the medicine and now they are getting so fine. They are looking 20 per cent better.

S. P. BROCKINGTON.

## The Sheriff Saves Life.

Murphysboro, Ill., March 10.—A mob from Carbondale made an attempt to take Thomas Vaughn, a mulatto, from the county jail here today, intending to lynch him. Sheriff Thorp was apprised by telephone of the mob's departure from Carbondale, and with Deputy Jack Woodward, waited in the second story of the jail. The mob, about 75 strong, approached the jail door and were covered with riot guns from the windows above. The mob hurriedly dispersed. Deputy Woodward's riot gun fell to the floor and was discharged, the charge tearing his right arm so that amputation was necessary. Vaughn is a prisoner charged with assault, the victim being a Carbondale school teacher.

## Colds Cause Pneumonia.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by Crawford Bros.

## Clemson Cadet Encampment.

Special to The State.  
Anderson, March 10.—The Clemson college authorities have accepted the invitation extended by the city council and the chamber of commerce to have the encampment of the cadets held in Anderson this year. The encampment will be held some time before the commencement, probably in May. The exact date is not known yet.

## Happy, Healthy Children.

Any child can take Little Early Risers with perfect safety. They are harmless, never gripe or sicken, and yet they are so certain in results that robust constitutions requiring drastic means are never disappointed. They cannot fail to perform their mission and everyone who uses DeWitt's Little Early Risers prefer them to all other pills. They cure biliousness. Sold by Crawford Bros.

## Facts About Japan.

The empire of Japan consists of a chain of nearly 4,000 islands, lying along the eastern coast of Asia and extending from 21 to 50 degrees north latitude. It is separated from China by the Formosa channel, about 75 miles wide, and from Korea by Broughton channel, less than 25 miles wide.

Of the nearly 4,000 islands of which the empire is composed, only about 500 are inhabited, and of these, five furnish by far the larger part both of the area and population. They are Shikoku, Hondo, Kinsiu, Yezo and Formosa. Formosa was acquired by Japan as one of the results of the war with China in 1894-5, and therefore cannot be considered as in thorough sympathy with the other parts of the empire.

The area of Japan proper is 110,822 square miles, or nearly twice as large as Georgia.

The population (exclusive of Formosa, which has about 3,000,000) was, when last taken in 1898, 43,155,998. It has now about 46,000,000 inhabitants.

The army of Japan, including the first and second reserves, consists of 420,981 men. Japan's navy has 183 vessels, of which number 12 are battleships, eight are armored cruisers, 30 ordinary cruisers and the rest torpedo boats, gun and destroyers. These vessels mount 562 heavy guns and 1,169 secondary and machine guns. The army and navy is under the command of the emperor (or mikado), Mutsuhito. The emperor is 51 years of age, and has reigned over Japan 37 years.—Atlanta Journal.

## Wakeful Children.

For a long time the two year old child of Mr. P. L. McPherson, 59 N. Tenth St., Harrisburg, Pa., would sleep but two or three hours in the early part of the night, which made it very hard for her parents. Her mother concluded that the child had stomach trouble, and gave her half of one of Chamberlain's Stomach and Liver Tablets, which quieted her stomach and she slept the whole night through. Two boxes of these Tablets have effected a permanent cure and she is now well and strong. For sale by J. F. Mackey & Co., druggists.

## Starvation and Sickness

Ping Yang, March 11.—The Russian army on the Yalu river is in a bad condition. Two thousand soldiers are reported dead from sickness and starvation. There is fever in all camps. The cruel treatment by officers is said to have broken the spirit of the troops. The Japanese have 100,000 men in this vicinity, and an advance movement is expected in a few days.

## READ IT THROUGH.

'Twould Spoil This Story to Tell It in the Headlines.

To use an eighteenth century phrase, this is an "o'er true tale." Having happened in a small Virginia town in the winter of 1902, it is a story very much of the present. Up to a short time ago Mrs. John E. Harmon, of Melba Station, Va., had no personal knowledge of the rare curative properties of Chamberlain's Cough Remedy. "Last January," she says, "my baby took a dreadful cold and at one time I feared she would have pneumonia, but one of my neighbors told me how this remedy had cured her little boy and I began giving it to my baby at once and it soon cured her. I heartily thank the manufacturers of Chamberlain's Cough Remedy for placing so great a cure within my reach. I cannot recommend it too highly or say too much in its favor. I hope all who read this will try it and be convinced as I was." For sale by J. F. Mackey & Co., Druggists.

## A STRIKING RESEMBLANCE.

### Between Roosevelt's Position and That of Arthur.

(Charles M. Harvey in the World)

There are some striking resemblances between the political situation in the opening months of 1904 and that of the same time in 1884, which was also a presidential election year. A President, a Republican and an Ohio man in each case, had been assassinated a few years before [Garfield in 1881 and McKinley in 1901] and had been succeeded by a New York man in the Vice Presidency [Arthur in the earlier instance and Roosevelt in the later one.] In each case there had been wrangling among the Republican leaders in the new President's State, [in which Conklin and Platt figured on the one side in Arthur's period and Platt has been antagonized by Odell in the Roosevelt case.] Arthur soon let it be known that he sought the Presidential candidacy in 1884, as Roosevelt has done regarding that of 1904. The Republican machine in the President's State was favorable to his candidacy then, as it is now.

Here are further similarities between the case of Roosevelt and that of Arthur: Each was called upon early in his service to deal with crookedness in the postal department [the star route frauds in the earlier case and the irregularities with the names of Tyner, Machen and others have been coupled now.] Just before each of these Presidents entered office a long period of industrial stagnation [the panic of 1873-78 in the one instance and that of 1893-98 in the other] had been succeeded by a restoration of confidence and advances in stocks commodities and wages [due in the earlier period to the establishment of specie payments under the Act of 1875] which went into operation in 1879, and in the recent period to the Republican victory of 1896, on a gold standard platform, followed by the enactment of the Dingley law of 1897 that, in addition to providing greater protection for home industry, abolished the treasury deficits. The advance in stocks met a check early in Arthur's service and also early in Roosevelt's, which was succeeded in each case by a short recovery, followed by a greater fall, the consequence being that the general line of shares was in the opening days of 1884 and 1904 than they were twelve or fifteen months before, wages, in some cases, participating in the shrinkage.

The many friends of John Blount will be pleased to learn that he has entirely recovered from his attack of rheumatism. Chamberlain's Pain Balm cured him after the best doctors in the town (Monon, Ind.) had failed to give relief. The prompt relief from pain which this liniment affords is alone worth many times its cost. For sale by J. F. Mackey & Co., Druggists.

## Trespass Notice

All persons are hereby warned not to hunt, fish, or in any way trespass upon any of the lands owned or controlled by the undersigned, under penalty of law.

Miss Hapgood tells how she was cured of Fallopien and Ovarian Inflammation—and escaped an awful operation by using Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I suffered for four years with what the doctors called Salpingitis (inflammation of the fallopian tubes) and ovaritis, which are most distressing and painful ailments, affecting all the surrounding parts, undermining the constitution, and sapping the life forces. If you had seen me a year ago, before I began taking Lydia E. Pinkham's Vegetable Compound, and had noticed the sunken eyes, sallow complexion, and general emaciated condition, and compared that person with me as I am today, robust, hearty and well, you would not wonder that I feel thankful to you and your wonderful medicine, which restored me to new life and health in five months, and saved me from an awful operation."—MISS IRENE HAPGOOD, 1022 Sandwich St., Windsor, Ont.

Ovaritis or inflammation of the ovaries or fallopian tubes which adjoin the ovaries may result from sudden stopping of the monthly flow, from inflammation of the womb, and many other causes. The slightest indication of trouble with the ovaries, indicated by dull throbbing pain in the side, accompanied by heat and shooting pains, should claim your instant attention. It will not cure itself, and a hospital operation, with all its terrors, may easily result from neglect.

"DEAR MRS. PINKHAM:—I can truly say that you have saved my life, and I cannot express my gratitude to you in words.

"Before I wrote to you telling how I felt, I had doctored for over two years steady and spent lots of money in medicine besides, but it all failed to do me any good. My menses did not appear in that time, and I suffered much pain. I would daily have fainting spells, headache, backache and bearing down pain, and was so weak that it was hard for me to do my work.

"I used your medicine and treatment as directed, and after taking three bottles of Lydia E. Pinkham's Vegetable Compound, menses appeared, my womb troubles left me, and I have been regular ever since. I used fourteen bottles of Lydia E. Pinkham's Vegetable Compound and Blood Purifier together, and am now restored to perfect health. Had it not been for you, I would have been in my grave.

"I will always recommend your wonderful remedies, and hope that these few lines may lead others who suffer as I did to try your remedies."—MRS. T. C. WILLADSEN, R. R. No. 1, Manning, Iowa.

Such unquestionable testimony proves the power of Lydia E. Pinkham's Vegetable Compound over diseases of women.

Women should remember that they are privileged to consult Mrs. Pinkham at Lynn, Mass., about their illness, entirely free.
